

Say It to Our Face!

Skin is in, and Dallas' beauty pros deliver the glow

The First Impressionista

Who says the recession has to be ugly? Savvy job-hunters are seeking the cosmetic attention of Dr. Naznin Karsan. These days, her calendar is filling up with employment hopefuls, those in the public eye and boardroom execs striving to keep their edge. "Many of my patients are competing for jobs with candidates who are much younger," says the doc. "It's not about trying to look 20, but looking the best you possibly can."

The upwardly mobile have been flocking to her Oak Lawn Avenue clinic for her much-buzzed-about liquid lift, a recipe of Botox and an array of fillers. First, Karsan slowly studies the face as if she's building a CADD model, searching for areas of depression, bone loss and asymmetry. With careful application she can give that down-turned mouth a more jovial ascent and erase a furrowed brow. And no downtime means extra time to retool that resume. *DeNovo, 2603 Oak Lawn Ave., 214.219.4000, denovospa.com.*
